About Us

Hafez Tile and Ceramic Company, with a history of more than four decades of activity, now has a track record of producing Nano-polished products in various sizes and dimensions, using 7 production lines with the most advanced machinery in the world under producing about 30 thousand square meters of all kinds tile and ceramic products per day. After successfully producing 100*100 product as the first manufacturer for two years, now this company is producing 120*120 and 160*80 sizes in addition to the usual market sizes. We proudly export our products to different countries in addition to domestic market. Using various facilities and appropriate infrastructures enables our company to make different products in black, dark colors and applying various carving, Microcid, sugar, etc. This company has tried to use the best raw materials to produce high quality products and secure packaging conditions for customers as well. The representative network of the company including some brand companies, sales representatives and export department are currently responsible for selling and related services for Hafez products.
